

Self Organizations

Application's questions per category

Please note the maximum number of characters for each question is 600.

Informal Coops

- Who is part of the group, have you worked together before, and in what fields is each of you active?
- What is the resource you need, and for how long do you want it?
- How will this resource help each of you develop your arts practice? What does each want to achieve over the period that this resource is made available to you?
- The sharing, use or, maintenance of this resource requires a decision-making process. What do you see as some of the collective decisions you will have to make and how will you approach them as a group? What will each of your individual roles and responsibilities be?
- In case of tensions or disagreement, which strategy would you use to resolve the issue?
- Please describe two issues you think are essential to consider when working in a self-organized way.
- Please outline the budget needed for the resource you want.

Topical Assemblies

- Who is part of the group, have you worked together before, and in what fields is each of you active?
- What is the topic of your assembly, and what makes it important for your group?
- Is this event part of an ongoing research or project? If so, can you tell us more about it?
- How and where do you plan to organize it? Although not required, please specify if this will include others from outside the group.
- What do you see as some of the collective decisions you will have to make and how will you approach them as a group? What will each of your individual and responsibilities be?
- In case of tensions or disagreement, which strategy would you use to resolve the issue?
- Please describe two issues you think are essential to consider when working in a self-organized way.
- Please list the total budget of your project and individual costs per category of expenditure (fees, material, etc.).

Your ideas

- Who is part of the group, have you worked together before, and in what fields is each of you active?
- What is the idea you want to realize and how does it fit in with the idea of self-organization?
- What makes it interesting for your group in both the short and long term?
- While realizing your idea, what do you see as some of the collective decisions you will have to make and how will you approach them as a group? What will each of your individual and responsibilities be?
- In case of tensions and disagreement, which strategy would you use to resolve the issue?
- Please describe two issues you think are essential to consider when working in a self-organized way.
- Please outline the budget you need and the different items, while noting that funds cannot cover salaries of the applicants or ongoing overhead costs only the immediate expenses of practically realizing the proposal.
